HANS GRONHI

OPEN HOUSE
LEEDS
20th/21st
SEPTEMBER

To see why Hans Gronhi has the right press, at the right price, at the right time - make sure you're in the right place!

Details and registration:
www.printers-superstore.com/openhouse.html

Hans Gronhi's stunning new factory in Yingkou is now open and producing at a rate of over one four colour press per day. The sheer scale of the plant is amazing - at 385,000 square metres, it's twice the size of the IPEX exhibition at the NEC. It utilises all the latest automated production techniques, and meets both the ISO9001 quality and ISO 14001 environmental standards.

21ST CENTURY PRODUCTION

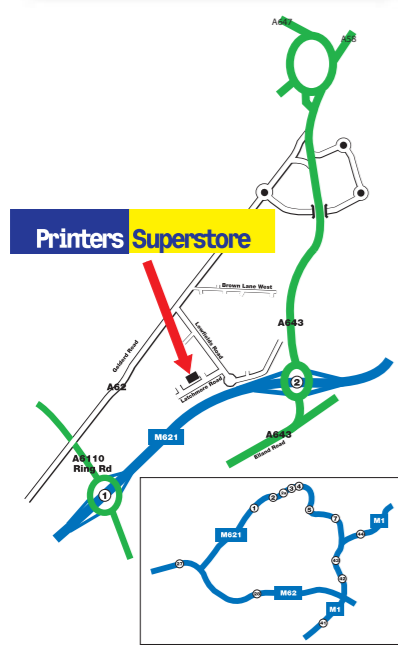

Don't miss your chance to see the machine that could revolutionise your business!

OPEN HOUSE 20/21 SEPT 2011

OPEN HOUSE

MAKE YOUR OWN ECONOMIC RECOVERY!

Come and see the future of offset printing at our Open House in Leeds! We are confident you'll be impressed by the output quality, construction standards and state of the art technology on show...and when you see the cost, you'll realise the advantage you could gain over your rivals and the difference it could make to your profitability!

20/21 SEPT 2011

SEE THE HANS GRONHI GH525

WITH NUMBERING AND PERFORATING

Available with Hans Gronhi's own CTP system:

CLOSED LOOP COLOUR

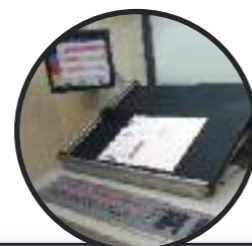

Data taken from CTP RIP is sent to Job Queue on press. Operator can then select job, and ink curve profile is set automatically on the press during set up.

Press sets ink curve profiles by automatically and remotely setting individual ink duct keys

Operator can use auto colour bar scan during the run to automatically maintain correct colour density

Ink/Water level compensators automatically maintain optimum ink/water percentage balances as press speed changes.

No more guesswork! Fast, simple, automated colour consistency from page to page, job-to-job!

Auto colourbar scanning with touch screen controls

IR Drying option
